CONDITIONS:

**ESTIMATED QUANTITIES AND BID SHEETS**

It shall be clearly understood by all parties that the amounts of material shown in the items are estimated and are given for the purpose of securing unit price bids. The amounts shown for the various items may be increased or decreased as much as deemed necessary by the Department of Transportation. Bidders should enter unit bid prices for items whose estimated quantity is zero in case the Area or other governmental agency desires to order that item sometime during the duration of the contract.

Item unit bid prices provided for each Area are for furnishing and delivering the material to any location within that Area. **The Unit Bid Price is that price for each unit of material, ton or pound, and not the total cost to furnish the total Estimated Quantity of the material.**
