

891.1 REQUIREMENTS

Dust Control Chlorides: Dust control chlorides shall conform to the following specification requirements:

A bill of lading shall accompany each delivery of calcium chloride or magnesium chloride. The bill of lading shall contain the following information:

1. The gallons (Liters or cubic meters) of solution.
2. The weight of the solution.
3. The percent concentration by weight of anhydrous calcium chloride or anhydrous magnesium chloride.
4. The specific gravity and temperature of the solution at the time of loading.
5. A concentration chart shall be provided listing the specific gravity of solution levels at a temperature of 68° F (20°C).

Each delivery of material to be used will be sampled by the Department, and submitted for a chemical analysis to the Central Testing Laboratory.
